May 2022

### Principal's Message

Happy May everyone! We are well into third term and are looking to keep the momentum going, and build on student learning. At school we are working hard to try and provide opportunities for kids to get outside, utilize the open spaces we have and engage with our environment. The school is a buzz with the restrictions having being lifted and now we can look at field trips, more school wide theme days and events and year end.

We wanted to say thank you to all families who were able to make it out to the student led conferences and were able to join us in the building. This was the first time many families have actually been able to enter the building and for students to show their learning. It was a great feeling to have our building running as it has in the past and to see the excitement on the students faces as they showed their parents the classrooms. We look forward to being able to do this more regularly and are excited for the next month with the opportunities it provides. We look forward to sharing our journey with you all.

Mr. P. Klassen

### Monthly Connection Activity

Although I still did not receive any images or stories about Earth Day, I remain ever hopeful. I know they come few and far between and they tend to slip our minds, but it is appreciated. Last month we focused on Earth Day and how we take care of the environment. For this month, we have left April Showers to May flowers. However, rain tends to plague us throughout the month. Therefore, I thought it

would be a great idea to take a photo of how your family celebrates the rainy days. Whether you brave it outside or cozy up inside, lets see what our community gets up to.

If you could please send your photos to [pklassen@deltaschools.ca](mailto:pklassen@deltaschools.ca) that would be much appreciated. I will add them to the school website for all to see.

### Track and Field

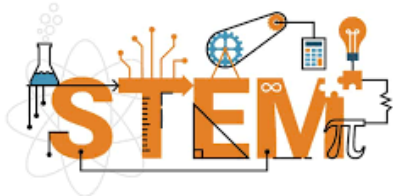

The time has come for our track and field events. We will be going to South Delta Elementary soon for our regional track meet. The students and staff have been training hard and learning about the different events. It has been great watching all of the students out there trying out the different events, engaging with all of the teachers and enjoying the exercise. Running club has also been a success, and it is wonderful to see the kids come every

Wednesday and just commit to their goals. It will be a fun track meet and I look forward to celebrating the success and effort of all of our competitors.

### STEM Week Has Arrived

The time has come for our school wide, in school, Science Technology Engineering Mathematics (STEM) workshop. Thank you to our very generous PAC for helping providing some of the funds to ensure that we were able to engage all students and look at the wonderful world of STEM. Each class is looking forward to the opportunities that come this week and it will be amazing to see what each group gets up to.

### PAC Hot Lunch

Hot Lunch is coming back! Stay tuned to hear about when and what dates you will be able to sign up for. It will all be through the website, Munch a Lunch and we encourage families to enjoy taking advantage of this wonderful opportunity. Thank you PAC for putting this together!

### IMPORTANT DATES TO REMEMBER
